The Why Of It

THE one million pieces of Muslin Underwear prepared for this sale will prove insufficient to meet the demands of our Public. It is the largest

quantity ever prepared for such a sale. It is nearly twice the quantity ever offered by ourselves. And yet it will prove insufficient. Why?

First-Because our principle is to supply underwear just as good as can be made, -not just as cheaply as we can. We don't believe in skimping. We don't believe in using trashy trimmings. We don't like raw seams and long-legged stitching, although all these are money savers,-in the beginning. We make this underwear just as you would make it for yourself, if you had the time. That's half the reason

Second-Because we know how to buy, as well as how to make, and we are so placed as to be able to

get this goodness cheaply. Not by diluting the goodness, but by taking advantage of time, locality and the power of money. No such underwear as ours is sold so cheaply, nor are there lower prices than our lowest prices. Hence a selling that has never been equalled since underwear became an article of retail commerce.

price, -some few at one-third price, some other few of the very finest goods at two-thirds prices.

Further, we will do the labor of recovering at its actual cost to us. There's a saving in that. Finally, we'll send a man to your house to look at your furniture and make suggestions and estimates.
